

STRUB Rust converter

Art.-No. 30611

Description

STRUB Rust Converter is specially designed for fast, easy and reliable rust conversion, which also serves as a primer and protection. STRUB Rust Converter is a heavy metal-free, dispersion-based aqueous product. After drying, a thin, dry, non-slip black protective film remains on the metal.

Application

STRUB Rust Converter can be applied in all commercially available methods. Loose rust should be removed.

Features and advantages

The product also serves as a primer. For heavily stressed surfaces, it is recommended to paint over it again with a primer. The protective film can be painted over with all common primers and paints.

Technical data

Appearance		milky liquid
Density at 20°C	g/ml	1.05
pH value		2.5 - 3.0
Solid	%	38.5

Transport

ADR/SDR UN 1993, VGr II, F1, Class 3

Disposal

LVA VeVA / EAK 11 01 04

Storage

Shelf life in original closed container, at 20°C, min. 1 year.

Levies

VOC subject to 11%

The information in this technical data sheet is based on general knowledge and application possibilities. STRUB + Co. AG is not liable for damage resulting from improper use of the products. The industry-standard measurement and production tolerances apply to the specified characteristic. Generally, no legal binding can be derived from these data. Our products are subject to continuous further development. Therefore, STRUB + Co. AG reserves the right to change all technical data in this data sheet at any time and without prior notice.
