

STRUB Paste AKS 2000 Chrom 40

Universal antifreeze paste

Art.-No. 30011

Description

STRUB Paste AKS 2000 Chrome 40 is a paste with good adhesion and spreadability. Based on synergistic lubricating oils, with special adhesive additives and good corrosion protection properties.

STRUB Paste AKS 2000 Chrom 40 has very good resistance to water, alkalis, acids, etc. and is compatible with all sealing materials designed for mineral oil and esters. STRUB Paste AKS 2000 Chrom 40 can also be used advantageously in wet and dusty operations.

Application

Solid lubricant paste of the most modern type. Use as a separating, lubricating and assembly paste in the field of tramways, industry and plant construction, automotive industry, iron and steel industry, as well as for all maintenance in all industrial plants.

Technical data

Color	silver gray
Structure	good adhesion
NLGI class	1
Drop point	none
Use as release and lubricating paste in the presence of oxygen	approx. 250°C
Use as release paste without presence of oxygen	approx. 1'200°C
Friction value	0,22-0,25

Transport

ADR/SDR No dangerous goods

Disposal

LVA VeVA / EAK: 12 01 12

The information in this technical data sheet is based on general knowledge and application possibilities. STRUB + Co. AG is not liable for damage resulting from improper use of the products. The industry-standard measurement and production tolerances apply to the specified characteristic. Generally, no legal binding can be derived from these data. Our products are subject to continuous further development. Therefore, STRUB + Co. AG reserves the right to change all technical data in this data sheet at any time and without prior notice.
