

STRUB Open Gear 99

Special adhesive grease for ropes

Art. No. 30706

Description

STRUB Open Gear 99 is an excellent adhesive, high-quality lubricant based on the latest technology. It contains a combination of synergistically acting solid lubricants for extreme application conditions such as interfacial friction.

STRUB Open Gear 99 is enriched with EP (extreme pressure) additives, which form a hydroelastic lubricating film that anchors itself to the metal surface and thus counteracts wear, abrasion and pitting. The product has very good resistance to water, seawater and salt water.

Application

STRUB Open Gear 99 can be used wherever parts are exposed to weather and water, for closed and open gears, racks and pinions, fifth wheels of trucks, chains, steel cables, sprockets, etc. The product is used in the steel industry, cement factories, sugar mills, power plants and ship berths.

Application

STRUB Open Gear 99 can be applied with a brush, spatula or automatic spray systems.

Technical data

	Norm	Unit	Value
Color	visual	-	gray
Drip point		°C	>240
Walkpenetration	25°C	-	320-360
NLGI class		-	0 - 1
Stiffener		-	Li/Na soap
Operating temperature	-	°C	-30 - 80
FZG (A/2, 8/50)	-	-	>12
Pour Point		°C	-20

Advantages

- very good lubricating properties
- wide application possibilities
- Excellent adhesion
- very high water - and salt water resistance
- Light color
- longer service life
- Extended lubrication intervals

Transport

ADR/SDR: No dangerous goods

Disposal

LVA VeVA / EAK: 12 01 12
