

STRUB Plaster thinner

100 % subject to VOC

Art.-No. 30605

Description

Excellent solvent for cleaning fresh paint, spray guns, vessels, oil, grease, wax, tar etc. Also cleans many other water-insoluble dirt.

Application

For cleaning brushes, rollers and other painting utensils. Can also be used for cleaning surfaces. Dosage: Use undiluted.

Press brush or roller into a little plaster thinner and knead until solution is well penetrated. If necessary, repeat a second time with fresh solution. Rinse with cold water. To clean surfaces, apply a little plaster thinner to stains and rub clean with cloth.

Test surfaces for compatibility in an inconspicuous place beforehand. The manufacturer accepts no liability for damage resulting from improper use.

Technical data

Density at 20°C	0.852 - 0.862 g/cm ³
Flash point	< 0°C
Boiling point	> 55°C
Ignition temperature	425°C
Solvent content	100 %
Shelf life	min. 2 years
Storage	in original container
Safety instructions	Observe safety data sheet

Transport

ADR/SDR Class 3, F1, packing group II
UN-Code 1993
IMDG-Code 3.3

Disposal

LVA VeVA / EAK: 14 06 03

Levies

100 % subject to VOC

Water protection

Must not enter drains, water courses or soil.

Fire protection

The product contains flammable solvents. These can form ignitable mixtures with the air when evaporating. Secure container against electrostatic charge!

The information in this technical data sheet is based on general knowledge and application possibilities. STRUB + Co. AG is not liable for damage resulting from improper use of the products. The industry-standard measurement and production tolerances apply to the specified characteristic. Generally, no legal binding can be derived from these data. Our products are subject to continuous further development. Therefore, STRUB + Co. AG reserves the right to change all technical data in this data sheet at any time and without prior notice.
